Objective: Highly skilled UI website developer with over 2+ years of professional experience. Seeking a challenging role to contribute my expertise in creating responsive and user-friendly web applications using React .

Experience:

Dignity of Noble:

- Developed and maintained responsive web applications using React and Redux.
- Collaborated with cross-functional teams to gather requirements and implement UI designs.
- Created reusable React components for improved code efficiency and project scalability.
- Implemented responsive design principles to ensure seamless user experiences across devices.
- Conducted code reviews to maintain code quality and adherence to best practices.
- Integrated RESTful APIs for data retrieval and management.
- Optimized application performance through code refactoring and performance tuning.
- Worked closely with the QA team to identify and resolve bugs and issues.

Lovely India software solutions:

- Developed front-end components and features using React, HTML, CSS, and JavaScript.
- Collaborated with designers to implement UI mockups and ensure pixel-perfect implementation.
- Integrated third-party libraries and APIs to enhance functionality and user experience.
- Participated in agile development methodologies, including daily stand-ups and sprint planning.
- Conducted thorough testing and debugging to ensure smooth functionality and compatibility.
- Maintained version control using Git and collaborated with team members on code repositories.
- Resolved production issues and provided timely support to users.
- Assisted in the mentorship and onboarding of junior developers.

TALK TO GURU:

Environment: Core Java, WordPress, HTML5, CSS3 , JAVASCRIPT

Roles and Responsibility:

- To make custom changes with LMS [Learning management system].
- To work with WordPress themes and plugins installations and configurations.
- Developed functionality to assign students for multiple courses.
- Worked with responsive themes.
- Worked with updating and designing themes and content. Managed the website maintenance very well.

Skills:

- Languages: JavaScript (ES6+), HTML5, CSS3
- Frameworks/Libraries: React, Next, Redux, React Router, TailwindCSS, Material-UI, Bootstrap
- Tools: Git, Webpack, Babel, npm/Yarn
- Testing: Jest, Enzyme
- RESTful APIs integration
- Responsive web design
- Cross-browser compatibility
- Problem-solving and debugging
- Strong collaboration and communication skills

Education:

[Bachelor's computer application],
Maharshi dayanand saraswati university, Bhilwara(Raj.), 2019

Declaration:

I hereby declare that above written particulars are true to the best of my knowledge and belief.
